

scim-anthy-0.3.0 has been released

Author: Takuro Ashie<ashie@homa.ne.jp>

Hi all. I'm an another scim-anthy author :)
Today, I released scim-anthy-0.3.0

Changes from 0.2.0:

- Enable to select shortcut keys for choosing a candidate directly. Added an option to close the candidate window on direct selecting. Added period and comma style preference. Launch dictionary administration tools from toolbar or shortcut key. Fixed a bug which clashes the scim-setup when reload the config. (Thanks! James Su) Other minor fixes (Thanks! UTUMI-san, Bando-san)
