

# scim 1.1.3 has been released.

Author: James Su<james.su@gmail.com>, Author: Liu Cougar<liucougar@scim-im.org>

A new beta version of scim has been released.

Changes since 1.1.2 are:

- Refactored BackEnd and FrontEnd to simplify the code. Fixed many bugs related to Panel. Added it.po Updated zh\_TW.po and ja.po

TODO for the next beta (1.1.4):

- Implement Keyboard Layout converting. Implement Proxy (or Filter) IMEngine interface if possible.

No new features will be added into scim after 1.1.4. The next stable version scim 1.2.0 will be released in early Mar.

Please download the source package of scim 1.1.3 from [sourceforge.net](http://sourceforge.net).
