

Why aren't characters I've input appearing in my KDE/Qt applications?

Why aren't characters I've input appearing in my KDE/Qt applications?

Details of the problem

If skim is loaded successfully, you can trigger input method and input with SCIM, but the committed characters do not appear in the KDE/Qt applications, then please try:

Solution

Make sure the

setting of Qt is "Over The Spot". You can change this by invoking "qtconfig",

tab, at the bottom of this page.
