

scim 1.3.0 is available for testing.

Author: James Su<james.su@gmail.com>, Author: Cougar Liu<liucougar@scim-im.org>

I happily announce that the long waiting version scim 1.3.0 is now available for testing. Please download the source tarball from <http://sf.net/projects/scim> and test it.

Lots of changes were made since scim 1.2.x. Please check ChangeLog file for details. Following are major changes:

- IMEngine Filter interface was fully implemented, including a Proof of Concept Filter, Simplified-Traditional Chinese conversion.
- Support of various keyboard layout was added into scim::KeyEvent. Panel client operations have been abstracted into class PanelClient. New virtual method scim::IMEngineInstance::update_client_capability() was added.
- Many bugfixes.

Please test it as much as you can and give us feedback.
If all things are ok, scim 1.4.0 would be available within one month.
