

scim-skk-0.3.0 released

Author: Takuro Ashie<ashie@homa.ne.jp>

scim-skk is a Japanese input method module for SCIM. This release improves performance of initializing.

Changes from scim-skk-0.2.1:

- new implementation of dictionary (speedup at loading)
- highlighting of candidates
- add a few configurations

You can download it from sourceforge.jp
