

skim 1.3.2/scim-qtim 0.9.2 has been released

Author: Cougar Liu<liucougar@scim-im.org>

From 1.3.2, skim migrated to [bksys](#) as the build system. Please consult the README file about how to install. The 0.9.2 release of scim-qtim is scim 1.3.3 compatible version which added the share input method support.

skim ChangeLog since 1.3.1

- migrated to [bksys](#) build system
- fixed: font text color issue in the input window
- fixed: handbook invoking in the help dialog

Please consult the README file in the skim package on how to install. 1.3.2 should be the last test release before next stable version 1.4.0.

scim-qtim ChangeLog since 0.9.1

- Added share input method support

Please download the package from the [usual place](#).
