

# scim-prime-0.3.0 has been released

Author: Takuro Ashie<ashie@homa.ne.jp>

scim-prime-0.3.0 and skim-scim-prime-0.3.0 has been released.

scim-prime-0.3.0 and skim-scim-prime-0.3.0 has been released.

skim-scim-prime adds a PRIME settings page to the setup window of the SKIM. It doesn't include scim-prime itself, so you need to install scim-prime at first to use PRIME IMEngine for SCIM.

Changes from scim-prime-0.2.10:

- Fix some wrong key bindings (Page up & Page down candidates).      ✎ Fix a problem that scim-prime loses the connection to the PRIME process when I/O is busy. ✎ Fix a crash problem of scim-setup when use scim-prime with glibc-2.3.5's iconv & scim-skk.      ✎ Fix some UI messages. ✎ Add SKIM support (provide as external package named skim-scim-prime).
