

# New homepage for SCIM project

Due to the recent compromise of the Freedesktop.org where SCIM was hosted, the wiki page there has been in a totally un-usable state for several weeks. We decided to migrate to other places.

We highly appreciate AWTOHOST (Asia World Trade Organization Limited), who offered us with this free virtual host, bandwidth and domain name (scim-im.org). Thanks to their kind offer and contribution to SCIM project.

Now this site is built up on eZ publish 3.5.0.
