

skim 1.4.1 is on shelf

Author: Cougar Liu<liucougar@scim-im.org>

Minor bug fix version of skim 1.4.1 is just available. This update is recommended for all distros, but if you compiled skim yourself and do not observe any issues, this update is not necessary.

ChangeLog since skim last stable version 1.4.0:

- Improved: embedded mode (in kicker) of main window Fixed: build system issues in regarding to packaging and 64 systems

[Download](#) is available in the usual place.
