

# scim-anthy-0.9.0 released

Author: Takuro Ashie<ashie@homa.ne.jp>

Now scim-anthy supports SKIM! The package is provided as "skim-scim-anthy" which is separated from scim-anthy.

scim-anthy-0.9.0 released.

Changes from 0.8.0:

- Add SKIM support (Provide as external package). Add prediction key bindings to ATOK like key bindings theme. Ensure to through space key event to enable application's specific feature like Mozilla's scrolling feature. Fix double committing bug on Wide Latin mode. Other minor fixes.
